On May 3, 2022, France's Ministry for Ecological Transition issued Decree of April 13, 2022 to regulate two categories of mineral oil MOSH/MOAH whose use is prohibited on packaging and in printing intended for the public -leaflets, brochures, etc. Usage of MOSH/MOAH disrupts the recycling of packaging waste paper or restrict the use of recycled materials because of the risk of these substances to human health.

Highlights of the requirements for MOAH and MOSH are summarized in table below:

Substance	Scope	Requirement	Effective Date
MOAH consisting of 1 to 7 aromatic rings	Inks	$\leq 1.0\%$	January 1, 2023

MOSH consisting of 16 to 35 carbon atoms		$\leq 0.1\%$	January 1, 2025
